Media Prospecting CRM & Content Engine TEAM SOP

Executive Prospecting, Media Show Intelligence & AI Voice Synthesis Operations Manual

Live App: media-prospecting-crm.onrender.com

Cloud DB: Neon PostgreSQL (Auto-Synced)

Audience: Growth, Research & Content Team

> **Shared Cloud Environment:** All team updates to contacts, status changes, research documents, and generated articles sync directly to the central Neon database in real time.

1. Platform Architecture & Direct Links

🎙️ CRM Dashboard (Home)

URL: `https://media-prospecting-crm.onrender.com/`

Houses the **72 Executive Contacts** and **139 Podcast Shows**. Used for live search, pipeline management, directory searches, notes, and Excel/TSV exports.

📝 Content Engine Studio

URL: `https://media-prospecting-crm.onrender.com/content`

Ingests PDFs, web links, or CRM angles to extract verified research statistics and draft swipeable LinkedIn carousels, in-feed essays, and executive memos.

2. CRM Dashboard Operations (Prospecting & Pipeline)

1. **Switching Pipelines & Display Views**

   Click 🎙️ **Podcast & Media** or 💼 **Executive & Dealmakers** in the top switcher. Use 🗂️ **Cards View** for quick-action links and contact buttons, or 📋 **Table View** for high-density scanning.

2. **Instant Global Search & Status Filters**

   Type into the `#global-search-input` box to filter leads across names, companies, themes, hooks, or notes in 0ms. Use the Quick Filter pills (*Identified, Watch & Comment, Outreach Sent, Booked*) to isolate pipeline stages.

3. **Discovering New Shows via Online Directories**

   Click 🌐 **Search Online Directories** in the top action bar. Select a niche preset (e.g., *Founder Blindspots, Operations & Systems, PE Diligence*) and choose YouTube, Podcasts, or Google News to run curated query strings in new tabs.

4. **Updating Leads, Logging Outreach & Exporting**

   Change status via the card dropdown, or click ✏️ **Edit** to record verified contact emails, LinkedIn URLs, and engagement logs. Click 📥 **Export Excel** for the master 3-tab workbook.

3. Content Engine Operations (Research & Voice Synthesis)

Access via `/content` or by clicking 📝 **Content Engine** in the top header.

Step-by-Step Content Synthesis Workflow

1. **Open the Synthesis Studio**
   Click the purple ✨ **Synthesize New Content** button in the top-right corner.

2. **Select Reference Input Source**
   Choose one of the 4 dedicated source options:

Source Method	Input Type	Primary Use Case
📄 **Upload PDF**	PDF Files	Whitepapers, industry reports, academic papers, pitch decks, SEC filings.
🌐 **Web URL**	Live HTTP Links	Substack articles, Bloomberg/Reuters features, blog posts, online studies.
✍️ **Text / Markdown**	Raw Text	Interview transcripts, book highlights, draft notes, unformatted thoughts.
💼 **CRM Lead Hook**	Dropdown Selection	Pick any of the 72 Executives or 139 Podcasts to tailor content to their angle.

3. **Select Author Voice Persona**
   - **Forensic Risk Operator:** High-stakes operational risk, forensic rigor, counterparty fragility, institutional blindspots.
   - **Strategic Dealmaker:** M&A execution, bolt-on acquisitions, PE diligence, value creation, commercial leverage.
   - **+ Add Custom Voice:** Set custom tone attributes and reference style examples.

4. **Select Output Formats & Generate**
   Check **Tier 1** (LinkedIn Carousel Outline + Hook Post), **Tier 2** (In-Feed Thought Leadership Essay), and/or **Tier 3** (Executive Briefing Memo). Click ⚡ **Synthesize Content & Research**.

4. Reviewing, Copying & Publishing Content

Action	Button	What It Does
Preview Slides	👁 `View / Copy Post`	Interactive slide viewer to preview swipeable carousel decks slide-by-slide.
Copy Slide Script	📋 `Copy Slide Script`	Copies full slide deck copy with headlines and visual notes for Canva/Figma.
Copy LinkedIn Post	📋 `Copy LinkedIn Post`	Copies formatted in-feed post ready for immediate publishing on LinkedIn.

Action	Button	What It Does
Copy Briefing	📋 `Copy Briefing`	Copies structured executive memorandum with key findings and analysis.
Inspect Citations	🔬 `Dossier`	Opens verified data points, empirical facts, and direct links to original sources.

5. Team Best Practices & Operational Rules

- **Keep Notes Specific:** When updating lead cards, log specific dates (e.g., "*Connected on LI 10/24 - replied regarding M&A diligence*").
- **Ground Content in Empirical Facts:** Always verify that generated articles reference the underlying data points in the 🔬 **Dossier** before publishing.
- **Export Backups:** Team leads should download the master Excel workbook once a week via 📥 **Export Excel** for offline records.
